

Uniting India's Energy Ecosystem for a Sustainable Future

"Transition to green energy must go hand in hand with the continued use of hydrocarbons"

"India stands at a pivotal juncture in its energy journey, striving for a balanced approach to energy security, economic growth, and environmental sustainability. The country is already playing a global role in energy transition and has taken a leadership position in the pursuit of net-zero goals. This energy transition will require collaborative partnerships between organizations and industry, significant investments, and an integrated approach.

Fostering India's growth and economic progress through its B2B platform, the **14th edition of its International Integrated Energy Exhibition from 3rd-5th March 2027** in Mumbai will delve into emerging technology trends and address concerns to accelerate India's energy transition through focused discussions on Renewable Energy & Green Hydrogen, Nuclear Energy, Thermal Power, along with Oil & Gas, Natural Gas & LNG, Refining & Petrochemicals, and Corrosion Mitigation. The event is also incorporating Shipyard, Maritime & Ports segment and Health, Safety & Environment segment this year to build greater synergy in the Energy ecosystem.

The event will feature an elaborate display of cutting-edge technologies by more than 300+ Exhibitors and will host over 15,000+ Business visitors for business networking and interactions.

International Integrated **ENERGY** Exhibition & Conferences

3-5, March 2027

Venue: Bombay Exhibition Center, Goregaon (E), Mumbai, India

Eminent industry leaders are curating focused conferences in line with the vision of our Honourable Prime Minister of India to achieve energy self-sufficiency by 2047 and net-zero goals by 2070.

The premise of this integrated energy meet is to bring together stakeholders from conventional fossil fuels (oil, gas & coal), renewables (hydro, solar & wind), and emerging energy sources

like hydrogen & biofuels to explore pathways to decarbonize the energy ecosystem and realize the shift to cleaner sources, and most importantly, to educate upcoming generations."

Industry Leaders Brainstorm Key Priorities at 1st CAB Meeting for Renewable Energy & Green Hydrogen World Expo & Conferences 2027

- The meeting was convened under the leadership of Mr. Sivakumar V. Vepokomma, Director (Power System), Solar Energy Corporation of India (SECI) and Chairman, Advisory Board.
- Main Theme Concluded: "Accelerating Clean Energy Leadership: Innovation, Investment, Green Hydrogen and Decarbonisation Leading to Energy Sovereignty"
- A Technical Committee was constituted under the leadership of Mr. Sunil Jain, Founding Partner, Sundev Renewables LLP, to further refine the conference themes, sessions and key differentiators.

Industry Leaders during 1st CAB Meeting held in New Delhi

The First Central Advisory Board (CAB) Meeting of the Renewable Energy & Green Hydrogen World Expo & Conferences 2027

was convened in hybrid format under the leadership of Mr. Sivakumar V. Vepokomma, Director (Power System), Solar Energy Corporation of India and Chairman of the Advisory Board.

The Event will witness 3 Day of Integrated ENERGY Exhibition from 3rd-5th March 2027 at Bombay Exhibition Centre, Goregaon, Mumbai. The one-day technical conference on Renewable Energy & Green Hydrogen will be held on Wednesday, 3 March 2027. During the meeting, 14 potential themes were presented, covering key areas such as *Viksit Bharat 2047*, energy sovereignty, green hydrogen, investment, innovation, decarbonisation, and India's net-zero journey. Following extensive deliberations, the Advisory Board finalised the main theme for the conference, "Accelerating Clean Energy Leadership: Innovation, Investment, Green Hydrogen and Decarbonisation Leading to Energy Sovereignty." The discussions reflected the industry's collective vision and commitment to

accelerating India's transition towards a clean, secure, resilient and sustainable energy future.

The meeting brought together 50+ industry professionals and experts for an extensive brainstorming session on the key priorities and direction of the upcoming conference.

Following deliberations on 14 proposed themes, the Advisory Board identified the most relevant direction for the 2027 conference.

A Technical Committee, led by Mr. Sunil Jain, Founding Partner, Sundev Renewables LLP, was also constituted during the meeting. The committee will consolidate inputs received from Advisory Board members and industry stakeholders through email and online discussions and refine the brainstorming outcomes into three to four concise and impactful conference taglines.

The committee will also work towards finalizing the sub-themes, technical sessions and unique selling propositions (USPs) of the conference, ensuring that the programme reflects the most pressing issues, opportunities

"Accelerating clean energy leadership, innovation, investment and green hydrogen is ideal because we are already there, and we want to accelerate further."

Mr. Sivakumar V. Vepokomma
Director (Power System), Solar Energy Corporation of India (SECI) and Chairman, Advisory Board, Renewable Energy & Green Hydrogen World Expo & Conferences 2027.

and innovations shaping India's renewable energy and green hydrogen ecosystem.

3-5 March 2027 | Mumbai, India

Industry Leaders Meet & Ideate for Nuclear Energy World Conference 2027

- Theme of the conference is Strategic Dimensions of 100 GW Nuclear Energy Capacity by 2047
- The 1st Central Advisory Board meeting was attended by 40+ Professionals from the Nuclear Sector.
- Dignitaries also included representatives from the Embassy of France, Russia and Canada.
- The Nuclear conference will act as a platform for B2B, G2G and G2B collaborations with participating international companies.
- MoUs anticipated to be signed during the event.

Industry Leaders during 1st CAB Meeting held in New Delhi

The 1st meeting of the Central Advisory Board (CAB) for Nuclear Energy Conference 2027 was held on Tuesday, 14th July 2026, under the leadership of Dr. V. K. Saraswat, Former Member, NITI Aayog and Chairman, Nuclear Energy World Expo & Conference 2027.

The meeting saw the presence of Smt. Vartika Shukla, Former CMD, EIL; Mr. Sanjay Kirloskar, CMD, Kirloskar Brothers Limited; Mr. Ranjay Sharan, President-Nuclear Business, Reliance Industries Limited; Anil V Parab, Whole-time Director & Sr. Executive VP

(Manufacturing), Larsen & Toubro and many more industry leaders.

The leaders concurred on session topics such as 'Strategy to achieve 100 GW of nuclear power by 2047', 'SMR technology', 'SHANTI Bill', 'Nuclear Economics', 'Talent Acquisition', to be included in the one-day conference.

'Roadmap for private sector', 'India Strategy for Nuclear', 'Localization of Manufacturing', 'Nuclear Fusion', 'Non-Power Applications', 'Pressurized Heavy Water Reactor', were some of the other topics suggested by Leaders.

Industry Leaders during 2nd CAB Meeting held in Mumbai

"In NITI Aayog we were working on the energy transition strategy for India to become net

carbon zero with a major push on nuclear energy, knowing the variability of nuclear energy and also to make sure that we have net carbon zero and knowing what is the kind of demand, which is going to go up in the country if we have to become *Viksit Bharat* by 2047, we realized that there is no other option but to push our nuclear energy programme."

Dr. V. K. Saraswat

Former Member, NITI Aayog, & Chairman, Nuclear Energy World Conference 2027

The 2nd Central Advisory Board Meeting was held in Mumbai at Larsen & Toubro Office. The leaders met and brainstormed on session topics and key note address topics and speakers. Day 1 will include inaugural session + 3 sessions, while Day 2 will include Keynote addresses + 2 sessions and 1 panel discussion.

The leaders concluded that the outcome of Nuclear Energy World Conference 2027 should focus on 'what should be our technology mix that can be possible for implementation to achieve the 100 gigawatt reactor'

World Expo 2027

3-4, March 2027 - Mumbai, India

1st Central Advisory Board Meeting for 9th Edition of Power & Coal World Expo & Conferences 2027 held in New Delhi

- Chaired by Mr. K. S Sundaram, Director (Projects), NTPC Limited, held at NTPC Office, New Delhi on 15th July 2026.
- Supported by The Ministry of Power, Govt of India.
- NTPC is Platinum Partner for event
- Main Theme : "Balancing Security, Decarbonization, and Transition: India's Power Sector Roadmap"
- Technical Committee formed to curate & finalize conference program

1st Central Advisory Board (CAB) Meeting for the 9th Edition of the Power & Coal World Expo & Conferences 2027 was held on 15 July 2026 in New Delhi

The First Central Advisory Board (CAB) Meeting for the 9th Edition of the Power & Coal World Expo & Conferences 2027 was held on 15 July 2026 in New Delhi under the leadership of Mr. K. S. Sundaram, Director (Projects), NTPC Limited and Chairman, Advisory Board.

The Event will witness 3 Day of Integrated ENERGY Exhibition from 3rd-5th March 2027 at Bombay Exhibition Centre, Goregaon, Mumbai. One day technical conference on Power+ Coal 2027 will take place on Thursday-4th March 2027 concurrently during the event. The Ministry of Power, Govt of India has extended support for the event.

The meeting brought together 20+ senior professionals and industry experts from the power and coal sectors to deliberate on key industry priorities and shape the agenda for the upcoming conference. Following detailed discussions, the Advisory Board proposed the overarching conference theme: "Balancing Energy

Security, Decarbonisation & Energy Transition in Action: India's Power Sector Roadmap."

Other key topics shortlisted during the meeting include : Future of Coal in India: Phase-Down, Flexibility, or Reinvention, Flexibility in Thermal Power with BESS integration, Coal Gasification, Industrial Decarbonization through Green Hydrogen/CCUS, Financing India's Dual Energy Goals, Financing India's Dual Energy Goals, Digital Power Sector: AI, Automation & Data-Driven Utilities, Grid Stability in a High Renewable Penetration Scenario, Commercial Viability of Renewable + Thermal Hybrid Models, Energy Storage: From Pilot Projects to Bankable Assets, Cybersecurity challenges in modern power systems, EPC & Supply Chain Readiness for Integrated Power Projects and Workforce & Capability Transformation.

The conference will also provide a platform for international experts and organisations to participate in the exhibition and technical conference, facilitating global knowledge exchange,

"India's energy landscape requires to address the challenges of the extended evening peak, which has

reached around 251 MW. Thermal power will continue to play a critical role in meeting evening demand and ensuring grid reliability during this transition. At the same time, we need to focus on energy transition, grid stability, strengthening transmission systems, workforce preparedness, and exploring the potential of hydrogen in power generation. These are critical areas that must be discussed as we shape the future of India's power sector."

Mr. K. S. Sundaram

Director (Projects), NTPC Limited & Chairman, Advisory Board Power & Coal World Expo 2027

technology collaboration and industry partnerships.

The NTPC team and Advisory Board members will further identify and define the scope of their participation, including contributions through academic and knowledge-sharing sessions, operational expertise, technical presentations, expert panels and thematic discussions.

The CAB meeting marks an important milestone in developing a high-impact technical programme that brings together policymakers, utilities, technology providers, investors and industry leaders to address the critical balance between energy security, decarbonisation and India's accelerating energy transition.

3-5 March 2027 | Mumbai, India

60+ Industry Experts attend the 1st CAB Meeting of Shipyard Maritime & Ports World Expo & Conference 2027

- Capt. B. K. Tyagi, Chairman & Managing Director, Shipping Corporation of India Ltd., chaired the meeting.
- 60+ senior industry leaders and stakeholders participated in the meeting.
- A Technical Core Committee was constituted to shape the conference agenda and finalise the overarching theme

1st Central Advisory Board (CAB) Meeting was held in Mumbai

"As India moves towards 2047, the centenary year of our Independence, we must look beyond the present and build a maritime sector

that is stronger, more resilient and future-ready. This milestone represents an opportunity to shape a globally competitive maritime ecosystem that can serve the needs and aspirations of generations to come."

Capt. B. K. Tyagi

CMD, Shipping Corporation of India Ltd., Advisory Chairman, Shipyard Maritime & Ports World Expo 2027

The First Central Advisory Board (CAB) Meeting for the Shipyard, Maritime & Ports (SMP) World Expo & Conferences 2027 was held on 11 August 2026 at the headquarters of the Shipping Corporation of India (SCI), Mumbai.

The three-day Integrated Energy Exhibition will be held from 3-5 March 2027 at the Bombay Exhibition Centre, Goregaon, Mumbai. A one-day technical conference on Shipyards, Maritime & Ports will be held concurrently on Thursday, 4 March 2027, bringing together industry leaders, policymakers, technology providers and maritime experts to discuss emerging opportunities and challenges across the sector. The event is being organised with the support of the Ministry of Power, Government of India.

The meeting was chaired by Capt. B. K. Tyagi, Chairman & Managing Director, Shipping Corporation of India Ltd., and focused on the forward-looking theme "Maritime India 2047." The deliberations set the stage for strategic

discussions on strengthening India's blue economy, advancing indigenous maritime capabilities, and positioning the country as a global leader in maritime technology, innovation and shipbuilding.

The meeting brought together more than 60 distinguished industry leaders, experts and stakeholders, who deliberated on key industry challenges and emerging opportunities for the upcoming Expo. Discussions covered a wide range of issues, including indigenous shipbuilding, port automation and digitalization, green shipping, maritime security, technology adoption and the development of a future-ready maritime ecosystem.

Senior representatives from leading organizations across the maritime, shipping, ports, energy, technology and industrial sectors participated in the deliberations. These included Jawaharlal Nehru Port Authority, Goa Shipyard Limited, Reliance Industries Ltd., Indian Register of Shipping (IRS), ONGC, C-DAC, A. S. Moloobhoy Group of Companies to name a few.

To take the discussions forward, the

meeting resolved to constitute a Technical Core Committee comprising Capt. B. K. Tyagi, Capt. Sanjay Bhatia, Ms. Nafeesa Moloobhoy, Mr. Hemant Shetty, Mr. Milan Zatakia and Mr. S. M. Rai. The committee will consolidate recommendations and suggestions received from Advisory Board members and industry stakeholders and work towards finalizing the overarching conference theme, key sub-themes and priority areas for the upcoming event.

The CAB meeting marks an important step towards bringing together policymakers, shipbuilders, port operators, shipping companies, technology providers, investors and maritime experts to collectively shape the roadmap for Maritime India 2047 and strengthen India's position in the global maritime ecosystem.
